

WRITE A WINNING JOB APPLICATION: E-BOOK

Downloading an eBook to your computer

- After you have paid PayPal for your e-book, a message is automatically sent to the e-book company, Pulley.
- Pulley then emails you a download link.
- **Click on that link to download the book to your computer.**
- **Only click ONCE** on the download link—and be patient—it might take a few minutes. *(If you double-click, or more, it will confuse the process.)*

Important

- Pulley locks you out permanently after three clicks.
- If you get locked out, contact me at lloydwhite@inet.net.au
- Your e-book will NOT download to an iPhone, and some government agencies or firms will not allow a download to their computer.

Reading an eBook on your computer or tablet or iPhone

- To read an eBook, you must have an eBook reader installed. To read it on your iPad or iPhone, you will need to sync the computer to that device and make the transfer.

Adobe Reader is NOT an eBook Reader.

- Our eBooks come in two formats:
 - **ePub is for Mac and Windows**
 - Mobi is only for Kindle tablets
- Most people download the ePub format, and all the Readers listed below will open an ePub. Some will open Mobi as well.
- eBooks are not PDF files and will not open as a PDF, or in an internet browser.

Download the following free e-book readers from the Internet

Mac

- Adobe Digital Editions
<http://www.adobe.com/solutions/ebook/digital-editions/download.html>
- iBook Reader app
- Kindle App <https://www.amazon.com.au/kindle-dbs/fd/kcp>
